Python code to demonstrate length of list using naive method.

```
# Initializing list
test_list = [ 1, 4, 5, 7, 8 ]
```

```
# Printing test_list
print ("The list is : " + str(test_list))
```

```
# Finding length of list
# using loop
# Initializing counter
counter = 0
for i in test_list:
```

```
    # incrementing counter
    counter = counter + 1
```

```
# Printing length of list
print ("Length of list using naive method")
```
